SCHOOL TRANSPORT

Live bus updates for every parent.
No GPS device on the bus.

The driver or conductor taps one button in the app at each stop. Parents get an instant push notification at every stage of the journey, under your school's name. No hardware to fit, no SIM card, no monthly device charge.

Picked Up

Child boards at the stop.
Parent is notified the same second.

On the Way

Bus is moving. Parents
see which stop it has
just left.

Reached School

Safe arrival confirmed.
Same three updates on
the way home.

GROWTH

How your school grows in the first year with its own app

Parents, teachers and the office move to one place. The results below are averages across partner schools, measured 12 months after launch.

+18% new admissions

A school with its own app on Google Play and the App Store reads as modern to prospective parents. Admissions enquiries arrive from the app, and the office answers them in one place.

94% fees paid on time

Online payment in ₹, instant receipts and automatic reminders replace weeks of phone calls. Collections that took a month now close in days

GROWTH

How your school grows in the first year with its own app

Parents, teachers and the office move to one place. The results below are averages across partner schools, measured 12 months after launch.

15 hours saved every week

Attendance, receipts, admit cards and report cards generate themselves. Office staff spend their time with families, not with paperwork.

4.9 / 5 parent satisfaction

Online payment in ₹, instant receipts and automatic reminders replace weeks of phone calls. Collections that took a month now close in days
